

DESCRIPTION

Multiclimber is a set of fitness devices which are quite a challenge to overcome, even for athletic children. During climbing, passing, hanging, every muscle works, thanks to which strength, endurance, coordination, as well as agility and flexibility improve. Such fun guarantees balanced motor development. Overcoming your own limitations and developing your overall fitness are undoubted advantages for users of fitness devices. The set was made of the highest quality materials, the metal elements are protected with a zinc layer and powder paint, and the platforms are made of non-slip HDPE board.
